

STREB PERFORMANCE LINE – PRINTING BLANKETS IN PERFECTION

STREB PERFORMANCE COATING

Segment	Sheetfed Offset
Application	Coating Blanket Water based coating and UV-varnish For all kind of substrates

Features

- * Superiour coating performance with water based coating and UV-varnish
- * Smooth and even coating transfer on all substrates
- * Quick and trouble free stripping
- * Simple cut and peel off – relief depth of 0,96mm
- * Superb shock absorbatation properties
- * Excelent chemical resistance of surface layer
- * Outstanding durability and dimension stability

Technical specifications

Thickness	1.96 ± 0.02 mm
Colour	Light Blue
Fabric Plies	3
Compressible Layer	closed cells
Tensile Strength	105 N/mm
Compressibility at 100 N/cm ²	7 %
Overall Hardness	73 Shore A
Surface Roughness [Rz]	9 µm
