

STREB PERFORMANCE LINE – PRINTING BLANKETS IN PERFECTION

STREB PERFORMANCE PREMIUM

Segment	Sheetfed Offset
Application	Conventional Inks Commercial and Packaging For all kind of substrates

Features

- * Very fine surface grinding
- * Particularly high rub resistance of surface layer
- * Precise dot and solid reproduction
- * Minimum dot gain
- * Excellent ink transfer and quick release properties
- * Superb shock absorption properties
- * Excellent chemical resistance of surface layer
- * Outstanding durability due to low-sink carcass
- * Low paper edge marking
- * Fast wash-up properties

Technical specifications

Thickness	1.96 ± 0.02 mm
Colour	Blue
Fabric Plies	3
Compressible Layer	closed cells
Tensile Strength	98 N/mm
Compressibility at 100 N/cm ²	6 %
Overall Hardness	79 Shore A
Surface Roughness [Rz]	6 µm
