

Coating plate

# Rossa F1 1,35

Sheetfed Offset - Coating Plate (rubber) with polyester carrier

Characteristics

- For water based (aqueous) and UV applications
- Optimized transfer and performance when applying special coatings like Soft Touch, Drip Off, Satin and Matt
- Superb dimensional stability due to stable polyester carrier (0.35 mm)
- Easy stripability (manual / plotter)
- Soft and smooth surface allows very good transfer process and an excellent coating application

Surface Colour

Technical Data

|                       |            |
|-----------------------|------------|
| Thickness (mm):       | 1,35       |
| Surface:              | Rubber-NBR |
| Kompressible Schicht: | No         |
| Hardness (Shore A):   | 60         |
| Reliefdepth (mm):     | 1          |
| ISEGA:                | YES        |

Applications

|                               |     |
|-------------------------------|-----|
| Water based/Aqueous           | ★★★ |
| UV Inks                       | ★★  |
| Special Inks (Softtouch/Matt) | ★★  |

Legend: ★ good, ★★ very good, ★★★ optimal
